

ENVIRONMENTAL POLICY STATEMENT

Meggitt Airdynamics, a manufacturer of high performance fluid dynamics products, is committed to a healthy environment by taking the role in our communities to be good neighbors and comply with all regulations. Our policy on safeguard of the environment is a statement of our environmental goals to communicate, train, improve, prevent, maintain and review our objectives and targets.

We shall also:

- Ensure the environment, communities and employees are protected during the design, manufacture and test of our products by minimizing the environmental impact of MAI activities.
- Regularly review and maintain our policy and communicate it to employees
- Work with our employees, suppliers, contractors and customers to promote responsible environmental, safety and health practices.
- Comply with all applicable Federal, State, Local environmental laws and regulations and all contractual provisions requiring environmental protection.
- We will strive to continually improve our environment and the prevention of pollution.
- Our team shall regularly review environmental objectives, goals and targets through monitoring and documentation.
